Bristol

SUPPLY + INSTALL

When Bouygues UK secured the contract to deliver Student Accommodation units at Pittville Campus for the University of Gloucester, they asked us to provide a fully costed solution to the external furniture, cycle and bin store requirements in line with the work we had successfully completed for them at the University of Hertfordshire. Our experience was central to achieving proposals that met design and cost criteria. We delivered on time and on cost to add this prestige scheme to our portfolio of work in this sector.

EXTERNAL FURNITURE SOLUTIONS
