Langley Design worked with Galliford Try on the new £23 million Trinity Academy in Leeds which provides the surrounding areas with 1,200 school places. We manufactured and installed our Sheldon timber enclosed cycle stores which provides a secure area for the pupils to park their bicycles whilst protecting them from the elements. We also manufactured our popular Sheldon timber picnic tables with galvanised frames providing seating facilities for outdoor dining and socialising. Our Pewsham concrete benches were also provided to offer additional seating and were positioned to follow the newly landscaped areas.
