Elms Bank College Hub is part of the Oak Learning Partnership Trust located in Bury, Great Manchester. Providing Secondary Special School provision for 11-19 year olds within the local community Elms Bank offers a bespoke curriculum pathway and a range of learning approaches that ensures all pupils prosper within the schools safe and friendly learning environment.

We were engaged at an early stage to help provide a solution for the school's external space that would be suitable for all the students. They decided on our popular and spacious Sheldon SPG326 canopy. Featuring a coloured non-fragile polycarbonate roofing, powder coated steel 'goal-post' leg arrangements and finished with our durable and cost-effective Treated Class 4 Redwood timbers. Providing a clear internal space and 36m2 of coverage the SPG326 offers a variety of uses to many projects, whether it be an external teaching area, dining provision or simply a covered space to socialise in, the canopy can be specified to your project's particular requirements, with a range of timbers, roofing & powder coat colours available.

Langley Design, located in the heart of the Cotswolds, offer a range of Street Furniture products to an array of construction projects throughout the UK. From large Cycle Shelters and Canopies, down to those final items required to finish your project such as door barriers and bollards. Available as supply only or installed by our experienced and fully trained site teams, if you have a current or future requirement or need help or advice with your projects Street Furniture provision please get in touch.
