

Laser Cut Tree Guard LC004

Material:

Mild Steel

Standard Finish:

Hot Dip Galvanised and polyester powder coated to any standard RAL or BS colour.

Optional Finishes:

Laser Cut Tree Guards can be manufactured in stainless steel and polish finished if required. Guards can be supplied galvanised only if required.

Adaptations:

Laser Cut Tree Guards are designed to bolt into bespoke manufactured support frames to compliment our Laser Cut Tree Grilles, they can if needed, also be manufactured with ground fixing spikes or any base plate adaptation to suite other site needs.

Technical Specification:

Laser Cut Tree Guards are 1500mm high as standard but can be made taller or shorter if required. As with all Laser Cut Tree Guards, they are manufactured to the diameter dictated by the grille or tree they are surrounding.
