

Installation Instructions

Wall Fixed Mirror Chimes Page 1 of 3

Weight of heaviest part **18kg** (Mirror Chimes)

1. Mark hole positions on wall, then drill to manufacturers specified diameter and depth of M10 rawl bolt (See Wall Fix installation sheet).

2. Once holes are drilled insert M10 rawl bolts into holes and set in place to secure tightly .

3. Attach wall mounts onto rawl bolts making sure they are tight to the wall and have the large holes to the outside. Use a long tool to tighten further.

4. Once all mounts are fixed in place attach the notes using M8 Barrel Nuts and Pin torx bit.

Install Instrument with 1m free space (from widest point) around it.

CAUTION: Chime surface can get hot in direct sunlight, if possible install in shaded areas.

KS2 - 850mm

KS1 - 700mm
