

True Student Birmingham consists of a mixture of 399 self-contained studio bedrooms and cluster room apartments for the students of Birmingham. Located centrally within the city offering easy access to the local shops and restaurants of the Bullring and New Street railway station, the new building also offers spaces for the students to study, exercise, relax and socialise. Langley Design were specified by KKA Architecture to provide the curved benching to the facilities external garden area. Utilising our popular Sheldon SBN307 and manufactured in durable Treated Class 4 Redwood timbers, this benching product is customisable to ensure the curves perfectly match the surrounding landscaped areas. The timbers are supported by a long-lasting galvanised steel frame, ensuring the product remains as good as new in the years to come. Our extensive range of benches and seats are available in a range of timber and metal finishes to fit every budget and our bespoke manufacturing and design capabilities ensure we can adapt our standard products to your site specific requirements. Offering a variety of Street Furniture products to all sectors of the built environment, Langley Design is located in the heart of the Cotswolds and work throughout the UK.
