

Playhouses

(technical specification)

J254

- 1- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

- 2- **The roof and seats** is made from a 12.5mm thick textured and non-slip compact material (HPL).

- 3- **The 68mm square posts** are made of laminated timber, which have not been treated with chrome or arsenic. Splinter-free, the laminate provides great strength and dimensional stability. The posts are protected from wear and tear caused by fungi and insects.

- 4- **The tubes** are made of diameter 40mm galvanised steel (thickness 2mm), ensuring robustness and durability of the equipment.

- 5- **The climbing holds** are made of polypropylene. They are non-toxic, inflammable and shock and UV resistant.

- 6- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
