Density	<div style="display: flex; width: 100%; height: 15px; background-color: #008000; border: 1px solid #ccc;"> </div>
Fineness	<div style="display: flex; width: 100%; height: 15px; background-color: #008000; border: 1px solid #ccc;"> </div>

Sowing rate:	25-50g/m ²
Sowing rate, when sowing with wild flora	4g/m ²
Overseeding:	15-25g/m ²
Mowing height:	20mm or twice
Unmown heights:	approx 150-20

This is a reduced maintenance mix that is naturally low growing & attractive, using fine grasses that are very tolerant of dry, infertile conditions reduces the need for additional applications of water and fertiliser. The addition of Crested Dogstail to the mix ensures a quick germination and green up of the sward.
