

Greenfix Grass Seed GF22 Standard Amenity Mix

Application and Benefits

Greenfix GF22 is a good all-round amenity seed mix which will establish very quickly in the spring. GF22 is a hardwearing, low maintenance mix with an attractive sward. This mix should be sown at a rate of 35g/m² on newly placed soil and 20g/m² for over seeding. Temperatures need to be around 10 degrees with no frost for establishment to take place.
