

Greenfix GGR100 Turf Reinforcement Mesh

Application and Benefits

Greenfix GGR100 is a foam PE net for the reinforcement of lawns suitable for vehicles. The special mesh has been designed to increase slip resistance of vehicles while improving their traction. GGR100 is therefore the best solution for parking areas, footpaths, caravans and for temporary reinforcement of unpaved roads.

Application:

Reinforcement of green driveways or other green areas subject to intense pedestrian passage both for permanent and temporary applications.
