

Outdoor Gym: CP-ODG

This unit is constructed using only quarter-sawn timbers using 12cm diameter quarter-sawn timbers which are pressure-treated and impregnated with wax.

All uprights are fitted with steel feet restricting moisture affecting the timber and delaying rot meaning that they will last for many years to come.

This product is concreted into the ground for stability.

The Outdoor Gym combines 5 elements:

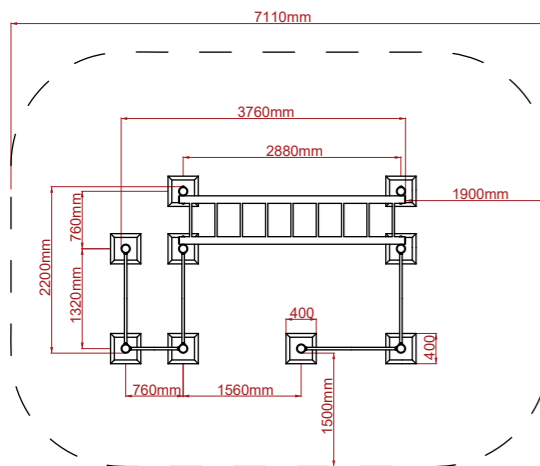

A robust 3.0m long Monkey Bar Ladder constructed using 2 x 10cm diameter round timbers and 60cm long stainless steel poles as the rungs. These are embedded into the timber for extra security.

It also includes 2 x chin up bars, 1 set of parallel bars and 1 x press up bar.
