

A traditional mix for spring overseeding.

- Excellent for spring and summer overseeding
- Very drought tolerant
- Greater disease resistance
- Low nutrient requirement
- Produces a fine, dense sward
- Suits traditional, sustainable and 'Links style' regimes

## Ratings

|                               |  |
|-------------------------------|--|
| <b>Wear tolerance</b>         | <div style="width: 40%; background-color: #4CAF50; height: 10px;"></div> |
| <b>Recovery</b>               | <div style="width: 40%; background-color: #4CAF50; height: 10px;"></div> |
| <b>Close mowing tolerance</b> | <div style="width: 80%; background-color: #4CAF50; height: 10px;"></div> |
| <b>Red thread tolerance</b>   | <div style="width: 70%; background-color: #4CAF50; height: 10px;"></div> |
| <b>Rust tolerance</b>         | <div style="width: 70%; background-color: #4CAF50; height: 10px;"></div> |
| <b>Colour</b>                 | <div style="width: 60%; background-color: #4CAF50; height: 10px;"></div> |
| <b>Salt tolerance</b>         | <div style="width: 80%; background-color: #4CAF50; height: 10px;"></div> |
| <b>Shade tolerance</b>        | <div style="width: 70%; background-color: #4CAF50; height: 10px;"></div> |

**A traditional mixture, especially useful for spring overseeding of high quality golf greens to improve sward composition and aid recovery from disease scarring.**

This mixture is treated with Headstart® GOLD

| %   | Cultivar | Species                     |
|-----|----------|-----------------------------|
| 30% | CALDRIS  | Chewings fescue             |
| 25% | CATHY    | Slender creeping red fescue |
| 25% | CEZANNE  | Slender creeping red fescue |
| 20% | NICKY    | Chewings fescue             |

Sowing Rate: 25-35g/m<sup>2</sup>

Oversowing Rate: 15-25g/m<sup>2</sup>
