ELECTROMECHANICAL BOLLARDS WITH BRUSHLESS MOTOR

The 275/K4EMB 900A and 275/M30EMB 1200A automatic electromechanical bollards have been designed to ensure the anti-terrorist defence. Current models are the result of our 40 years' experience in the security field and in excess of 20 years in the specific design and manufacture of automatic bollards. The installation of 275/EMB bollards is recommended for any sensitive site like company driveways, industrial driveways, research centres, embassies, police facilities and military bases.

A large range of optional accessories is available to customize your system according to any security needs.
