

# COCOTURF

CocoTurf is the worlds first non-plastic artificial grass for play, sport and landscaping made with 100% natural products.

At Notts Sport, we are committed to providing a natural, eco-friendly solution for playgrounds and recreational spaces. Our innovative turf is made from sustainable coconut husk fibres, whilst the backing is made from certified natural rubber latex, offering a safe, durable, and environmentally responsible alternative to traditional artificial playground surfacing.

## Sustainability at its Core

Our product is biodegradable and promotes sustainable farming practices by repurposing coconut husks, a by-product of the coconut industry. This helps reduce waste and supports local communities.

## Durable & Comfortable

The CocoTurf ChildsPlay Systems provide a cushioned surface that reduces the impact of falls, making it ideal for playgrounds and recreational areas. It's resilient enough to withstand heavy foot traffic while remaining gentle underfoot.

## Eco-Friendly Installation

The installation process for CocoTurf is simple, requiring no harmful adhesives or synthetic materials. Plus, it naturally integrates into the environment, allowing for proper drainage and preventing water stagnation.

## Aesthetic & Versatile

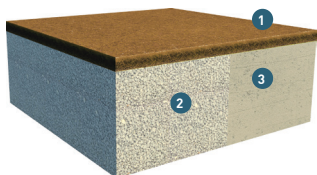

CocoTurf blends seamlessly with natural surroundings, offering an organic look and feel. Whether it's for playgrounds, parks, or even landscaped spaces, CocoTurf enhances the area with its earthy tones and natural texture.

## CHILDSPLAY SYSTEMS

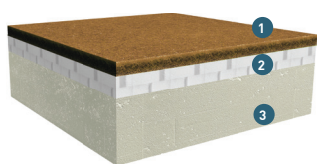

ChildsPlay is a versatile surfacing system that can be installed over existing asphalt, concrete, soil or stone. The system suits a range of environments, from a mud-free recreational area through to a surfacing that's ideal under climbing frames, swings and other equipment and offers critical fall height protection of up to 3.0 metres.

Each variant of the ChildsPlay system is topped by CocoTurf, and so a single scheme may use a combination of bases to meet different uses and safety requirements.

### CHILDSPLAY RECREATION

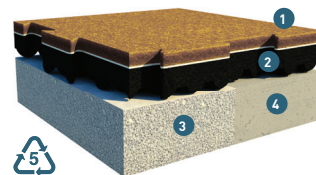

1. CocoTurf
2. Clean Stone
3. Concrete / Asphalt

### CHILDSPLAY 130

Critical fall height up to 130cm

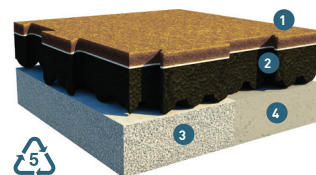

1. CocoTurf
2. Notts Pad CP 30mm
3. Concrete / Asphalt

### CHILDSPLAY 170

Critical fall height up to 170cm

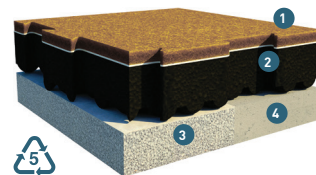

1. CocoTurf
2. NottsBase EPP 40
3. Sub base stone under a geotextile layer
4. Concrete / Asphalt

### CHILDSPLAY 210

Critical fall height up to 210cm

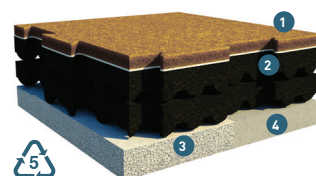

1. CocoTurf
2. NottsBase EPP 55
3. Sub base stone under a geotextile layer
4. Concrete / Asphalt

### CHILDSPLAY 250

Critical fall height up to 250cm

1. CocoTurf
2. NottsBase EPP 65
3. Sub base stone under a geotextile layer
4. Concrete / Asphalt

### CHILDSPLAY 300

Critical fall height up to 300cm

1. CocoTurf
2. 2 No. NottsBase EPP 40
3. Sub base stone under a geotextile layer
4. Concrete / Asphalt
