

Metropolis

(technical specification)

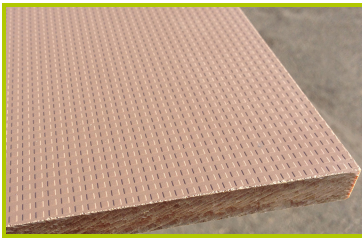

J47101

1- **The 125mm diameter posts** are made of painted galvanised steel, ensuring robustness and durability. The caps are made of injection moulded polyamide.

2- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

3- **The platforms** are made from a 12.5mm thick textured and non-slip compact material (HPL).

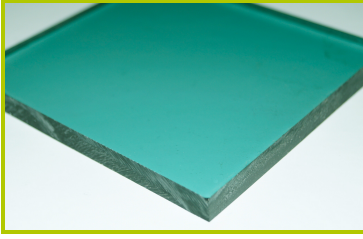

4- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

5- **The Kayak slide** is made of rotomoulded polyethylene.

6- **The tubular slide** is made of stainless steel.

7- **The portholes** are made from 8mm thick methacrylate (PMMA).

8- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
