

Perforated Mesh Fencing Information Sheet

Perforated Mesh Fencing

Discover the ultimate secure and stylish bike storage solution with our Perforated Mesh Fencing. This adaptable and durable fencing ensures high visibility without sacrificing security.

Highly adaptable and customisable to your dimensions and designs, suiting your site's specific needs. It features robust construction for long-term use, ensuring durability. The fencing provides high security with multiple lock options and the ability to add unlimited gates. Additionally, it combines functionality with decorative options to enhance aesthetic appeal.

Create a secure zone for cycle enclosures and enhance trust for commuters and residents with Perforated Mesh Fencing. Suitable for various applications, it is often paired with our Two-Tier and Semi-Vertical Bike Racks.
