

# Junior Basket Swing: CP-JBS

The Junior Basket Swing is specifically designed for smaller children to enjoy. Constructed with robust, 14cm diameter quarter-sawn timber legs which are set 2.0m apart. The legs are fitted with heat-sealed bitumen sleeves to prevent rot at the ground line.

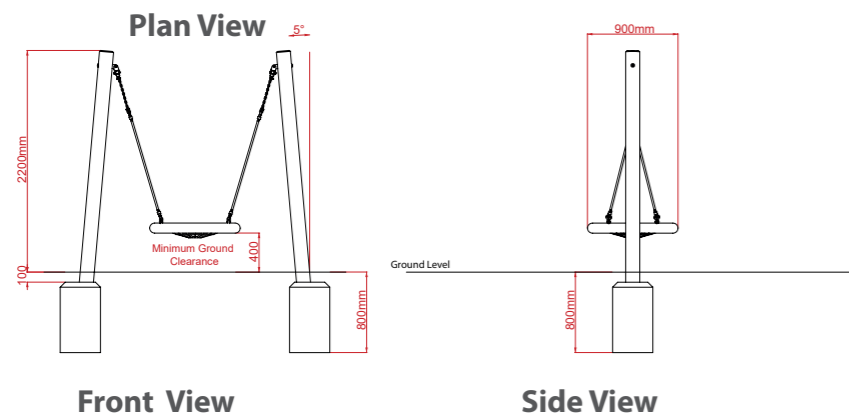

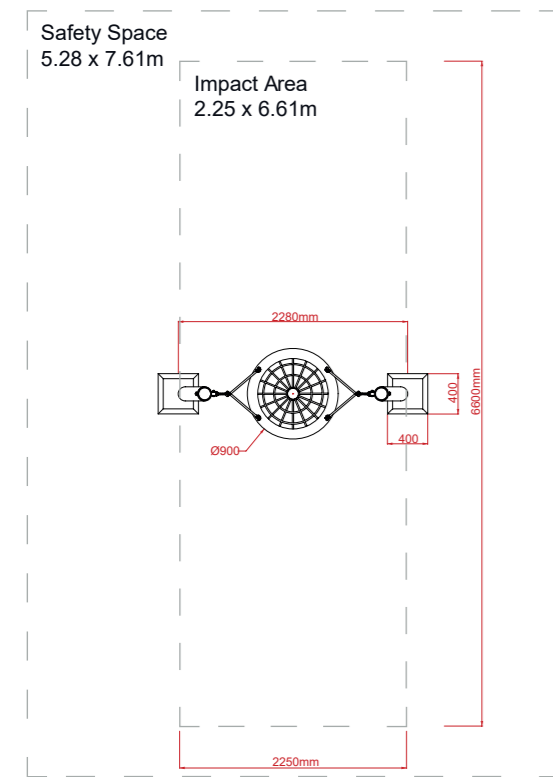

All fittings are stainless steel and the 1.0m diameter basket is a heavy-duty galvanised-steel ring, cushioned and secured with steel-core multi-strand 16mm herculean net rope.

This swing requires a safety surface.

The impact area is 2.25 x 6.61m, with a minimum free area of 5.28m x 7.61m.

Timber is a renewable resource, recyclable and biodegradable, and only timbers from sustainably managed sources are used.

## Specifications

Pressure treated wax impregnated timber frame  
1 x galvanised steel ring and herculean net rope basket

### Product Specification:

**Dimensions:** L: 2.28m W: 1.00m H: 2.20m  
**Age Range:** 3+ years  
**Play Type:** Active  
**Critical Fall Height:** 1.30m  
**Free Space Required:** L: 5.28m W: 7.61m  
**Impact Area:** L: 6.61m W: 2.25m

**Safety Surfacing Area:** 38.25m<sup>2</sup> (free space area)  
**Assembly:** Installation Required  
**Mass of Heaviest Part:** kg  
**Dimensions of Largest Part:** L: 3.0m W: 0.14m  
**Conformity to EN1176:** Yes
