

Basket Swing: CP-BS

This swing is a very popular product and is suited and certificated for use by children and adults with special needs. It has been designed to take several young children, or a couple of adults, at a time, with the capacity to carry a tonne.

Constructed with 12cm diameter, quarter-sawn timber legs and an 18cm diameter, machine-rounded top pole, the frame is 3.5m long by 2.8m wide by 2.7m high.

All fittings are stainless steel and the 1.2m diameter basket is a heavy-duty galvanised steel ring cushioned and secured with steel-core multi-strand 16mm herculean net rope.

The basket and ropes come in Black as standard (Red and Blue is available on request).

Safety surfacing is required to meet EN 1177 standards.

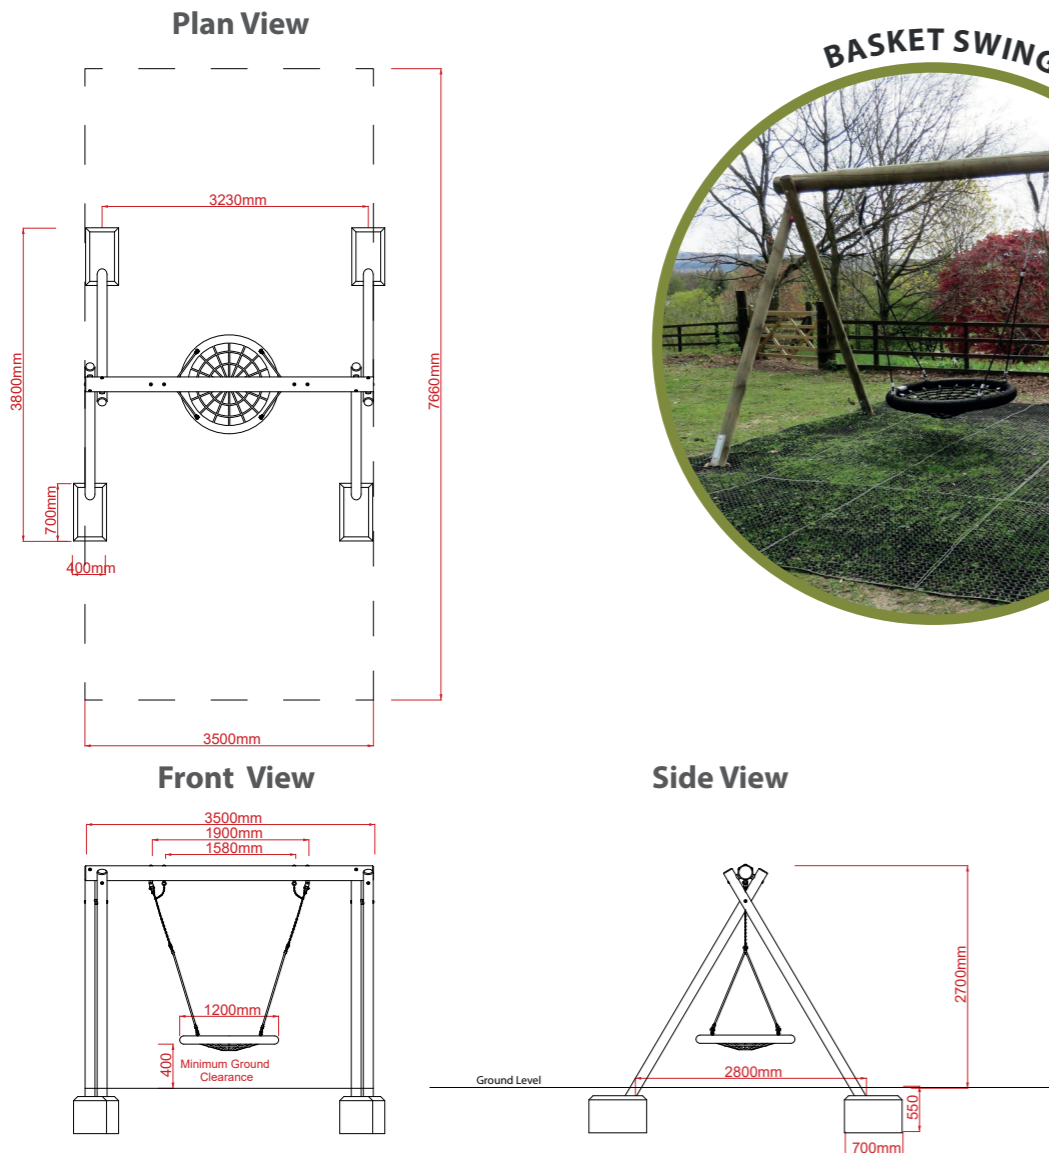

The minimum safety surfacing area is 3.0m x 7.66m for grass mats and synthetic surfacing, and the free space area is 6.5 x 7.66m.

Timber is a renewable resource, recyclable and biodegradable, and only timbers from sustainably managed sources are used.

Basket Swing Frame & Swing:

Pressure-treated wax-impregnated timber frame
1 x galvanised steel ring and herculean net rope basket

Product Specification:

Dimensions: L: 3.50m W: 2.80m H: 2.70m
Age Range: 3+ years
Play Type: Active
Free Fall Height: 2.1m
Free Space Required: L: 7.66m W: 3.50m

Safety Surfacing Area: 26.8m²
Assembly: Installation Required
Mass of Heaviest Part: kg
Dimensions of Largest Part: L: 3.5m W: 0.18m
Conformity to EN1176: Yes
