

Double Swing Frame with Inclusive Swing Seats: K-13D+

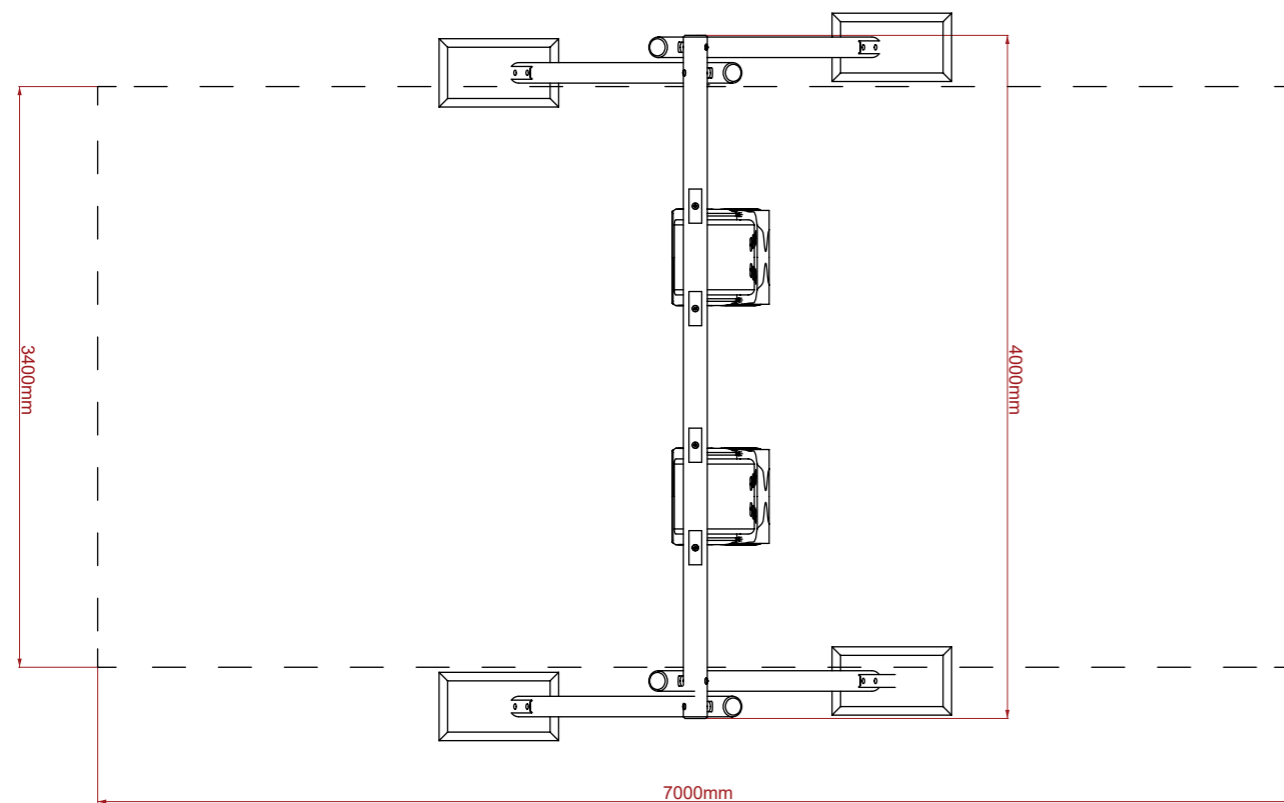

The Double Swing Frame offers the opportunity for two people to swing at the same time.

The frame is constructed from strong and robust round timbers that have been pressure-treated and impregnated with wax. This product is concreted into the ground as a permanent outdoor feature.

Designed and built to meet the standard for commercial play equipment, the Double Swing Frame is suitable and ideal for play areas for hotels, caravan parks and tourist destinations.

The swing seats are fully inclusive, are supplied with a five point harness and are specifically designed for use by those with restricted ability, or needing full body support.

This swing frame has a 4.0m long top pole and grass safety mats are recommended to prevent ground erosion at key points around and under the swings.

Specifications:

Pressure-treated wax-impregnated quarter-sawn round timbers with galvanised metal foot extensions.
Stainless-steel fixtures and fittings, swing points and chains.

Product Dimensions:

Dimensions: L: 4.0m W: 2.24m H: 2.78m
Age Range: 3+ years
Play Type: Active
Free Fall Height: 0.50m
Safety Surfacing Area: 22.06m²

Safety Mats Required: 17.5
Assembly: Installation Required
Mass of Heaviest Part: kg
Dimensions of Largest Part: N/A
Conformity to EN1176: Yes
