

## Storytelling Throne: CP - STT

Our Storytelling Throne is a large, robust seat suitable for adult use. It is a noticeably large piece of outdoor seating that will appear like a giant's chair to the littlest children.

Constructed from pressure-treated wax-impregnated European Pine, it blends in well in any natural setting and works well in conjunction with Mushroom Stools for the children to sit on.

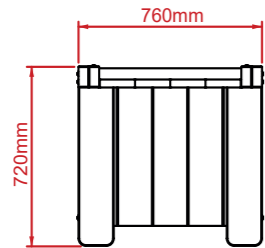

The legs are concreted into the ground to ensure stability. Heat-sealed bitumen sleeves are fitted to the section of the legs below the ground. This will keep the cause of ground rot out and the preservative in, ensuring that it will last for many years.

Timber is a renewable resource, recyclable and biodegradable, and only timbers from sustainably-managed sources are used.
