

# Outdoor Learning Shelter: CP-OLS

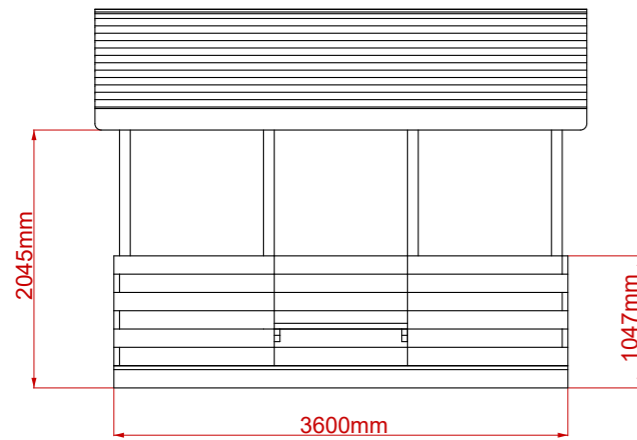

Our timbers are slow grown, pressure treated and waxed, and carry a Warranty\* against rot or infestation of up to seven years.

This is based on the salts based pressure treatment used. To extend the life of the timber and reduce the possibility of rot we use metal 'feet' to hold the timbers clear of the ground or apply heat sealed bitumen sleeves to the timbers before concreting in.

**Product Specification:**

**Dimensions:** L: 3.90m W: 2.70m H: 3.00m  
**Age Range:** NA  
**Play Type:** Shade & Shelter  
**Free Fall Height:** NA  
**Free Space Required:** NA

**Safety Surfacing Area:** NA  
**Assembly:** Installation Required  
**Mass of Heaviest Part:** kg  
**Dimensions of Largest Part:** L: 3.20m W: 0.15m  
**Conformity to EN1176:** Yes
