

Standard Single Tower - In-Line: K-71

The Standard Single Tower has a slide, steps, and small lower platform, and is best suited for 5-14 year olds.

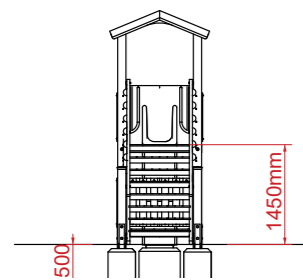

Constructed from robust treated timbers with stainless steel fixings the tower unit is based on a tower 1.2 x 1.2m square with a platform height of 1.5m.

The ends of the legs are fitted with hot dipped galvanised metal feet to prevent ground moisture affecting the timbers.

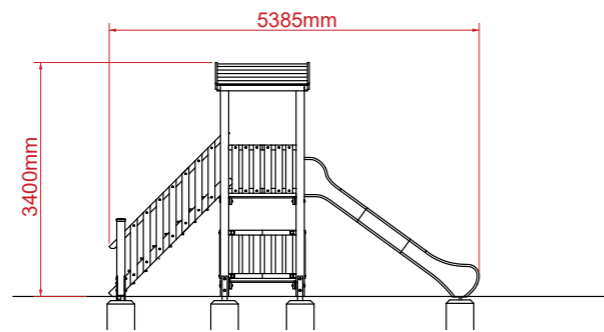

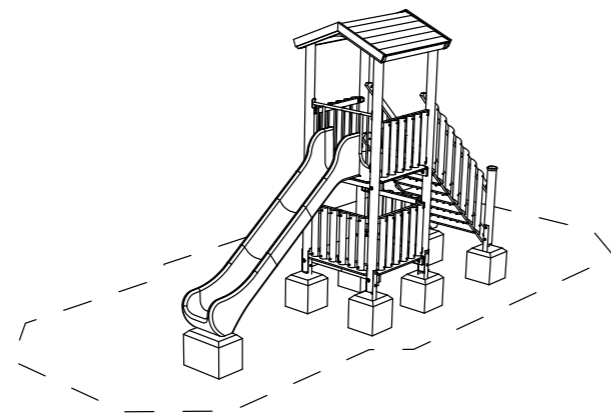

The large 3.0m slide is made from strong green UV protected high-density polyethylene that will not fade easily in the sun. Other access and exit points are available.
