

Single Tower with Ramp + Climbing Wall: K-71

This tower unit is aimed at children aged 5 – 14 years old and has an L-shaped formation. It comes with 5 solid steps, a tower with roof, a 2.5m green high-density polyethylene straight slide, a ramp and a climbing rock wall.

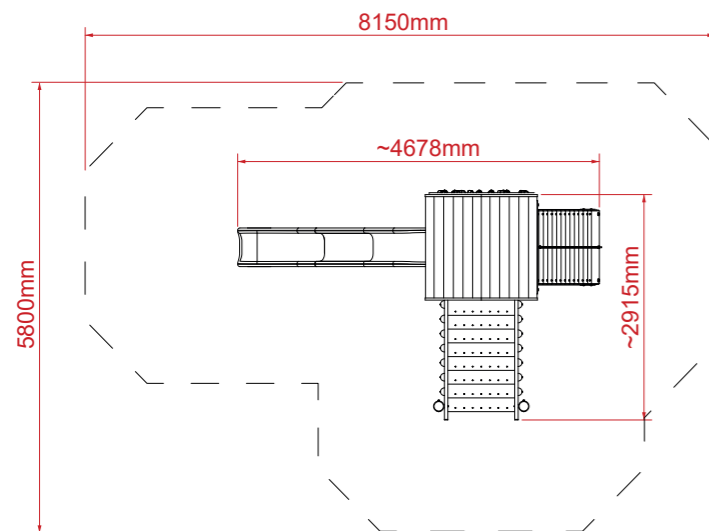

It has a platform size of 1.2 x 1.2m x 1.5m height. Three access points and one exit point enables children to access the tower either via the steps with handrails or by using the more challenging ramp or climbing wall.

The legs are fitted with hot-dipped galvanised metal feet to prevent ground moisture affecting the timbers. This tower can also be configured as an in-line unit to suit the space available.

Optional access points are a scramble net, or with a climbing wall with cut holes.

Safety surfacing is required to meet EN 1177 standards.

Timber is a renewable resource, recyclable and biodegradable, and only timbers from sustainably managed sources are used.

Plan View

Specification:

Pressure-treated wax-impregnated timbers

Steel fixtures and fittings

Machine-rounded timbers

Quality Buffalo Board

Product Specification:

Dimensions: L: 4.67m W: 2.91m H: 3.30m
Age Range: 5-14 years
Play Type: Active
Free Fall Height: 1.5m
Free Space Required: L: 8.15m W: 5.8m

Safety Surfacing Area: ~45.0m²
Assembly: Installation Required
Mass of Heaviest Part: kg
Dimensions of Largest Part: L: 3.0m W: 0.5m (slide)
Conformity to EN1176: Yes
