

# HAGS<sup>®</sup>

# ROSENLUND

# SINCE 1948

## Swedish by design

For over 75 years, HAGS has been shaping outdoor spaces that are refreshingly different, distinctly Swedish, and inimitably HAGS.

## Quality & Innovation

We are dedicated to creating innovative, high-quality products which adhere to the highest international safety standards, that exceed customer expectations by collaborating with industry experts and gathering valuable user feedback.

## Creating places for everybody

At HAGS, our mission is to create natural meeting places that enrich everyday life. We design our park and urban furniture to be inviting and comfortable, making it easy for everyone to enjoy the great outdoors. Our Scandinavian-inspired solutions blend stunning aesthetics with practical functionality, tailored to fit any space perfectly.

## We're here for you

Choosing HAGS means partnering with a team of experts passionate about creating outdoor spaces. With global representatives, we offer personalised support from concept to installation, ensuring each project meets your specific needs. Ensuring each space is functional and inclusive for all ages and abilities.

## Sustainability at our core

With a strong focus on sustainability, HAGS prioritises the planet, communities, and a circular economy, making a positive impact for generations to come.

## FLEXIBLE & ADAPTABLE

The Rosenlund furniture series is a **modular system** that makes it easy to create inviting, functional **outdoor spaces**. Mix and match benches, tables, trash cans, bike racks, and trellises – all available in a **range of colors**. Rosenlund adapts to parks, campuses, and city spaces alike, giving you the freedom to shape environments that are practical, balanced, and people-focused.

## VERSATILE DESIGN OPTIONS

Rosenlund's modular design allows for **countless layout possibilities**. Whether you're creating a quiet corner or a lively plaza, its elements work together to suit any space. Build linear seating, clusters, or stand-alone features that reflect the **rhythm of your environment**. Rosenlund helps you shape not just the flow of furniture, but how people gather, move, and feel.

## INCLUSIVE BY DESIGN

With carefully placed armrests and seat heights, Rosenlund is designed so everyone – **regardless of age or ability** – can sit and stand with ease. It's a smart choice for parks, shopping areas, schools, and care facilities. Wherever people meet, Rosenlund helps ensure **no one is left out** – blending inclusive design with **flexibility** and **timeless style**.

# How the Rosenlund System works

**The Rosenlund system is made up of modular parts that fit together easily.**

Start with a base in the shape and color you like. Then add a seat, frame, trellis, or height module – depending on what you need. From there, connect several modules together, or link them with benches and tables from the wider Rosenlund range to create tailored layouts that fit the flow and function of your space.

It's a simple system with **endless possibilities** – perfect for creating anything from small seating spots to large social areas.

## Modules

### 1. Base Module

Available in four shapes – **Square, Hexagon Small, Hexagon Large, and Half Hexagon**. Choose the shape that suits your layout and build upwards using the shown components.

### 2. Elevation module

Use this module to raise the height of your base, transforming it into a taller seat or tabletop.

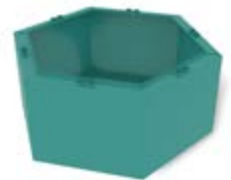

### 3. Bottom Plate Set

When using a base module as a **planter**, the galvanized base plate is required to **prevent soil from falling through**. It completes the unit and is included when ordered with either a trellis or wooden frame.

### 4. Wooden Frame

Use to complete **open planter modules** (those without a trellis), the wooden frame adds a clean, finished edge and softens the overall look. Available in **Nordic Pine** or **Hardwood**.

Hexagon Small

### 5. Wooden Seat Module

Add a seat to any base module to create informal, comfortable seating. Available in **Nordic Pine** or **Hardwood**.

Half Hexagon

### 6. Trellis

Lightweight and easy to install, the trellis adds **vertical structure** and visual interest. Use it to support **climbing plants** or as a partition to subtly divide space.

Square

- ★ Scandinavian Design
- ★ Steel available in 5 standard colors
- ★ Tops available in Pine and Hardwood
- ★ Many more HAGS-colors possible
- ★ Made from sustainable FSC-Wood

### Material Options for Seats and Frames:

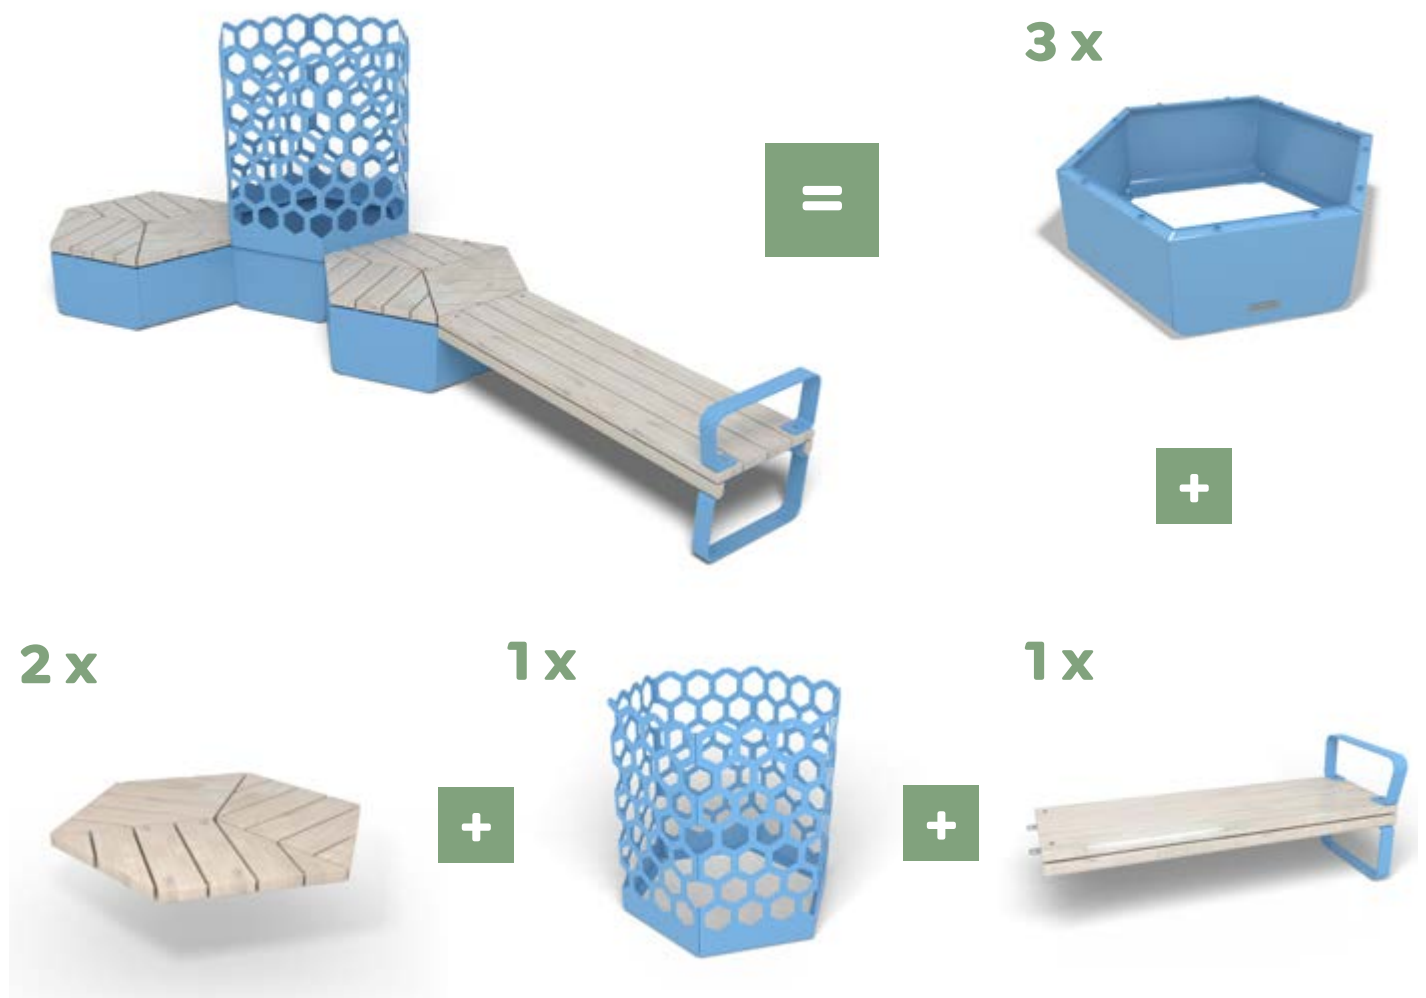

FSC Nordic Pine
