www.aeevans.co.uk

EvaRound 10 has a 10 year in-ground guarantee. Sustainably sourced FSC® certified (FSC® C102594) softwood. Pressure treated using the latest generation wood preservative. Ideally suited for climates similar to the UK.

EvaRound 15 has a 15 year in-ground guarantee. Produced from sustainably sourced Radiata Pine. Outstanding treatment properties, which allow the latest generation wood preservative to penetrate the entire timber during pressure treatment. Suitable for most climates including hot or wet environments.

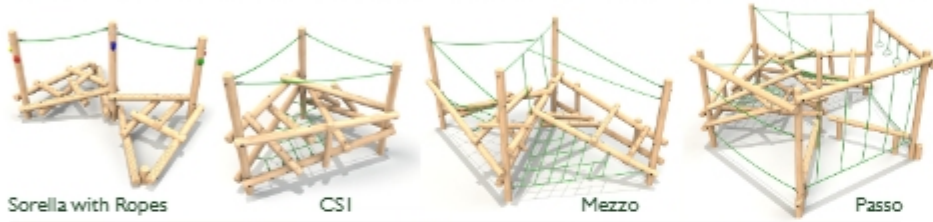

EvaLam 15 Laminated timbers come with a 15 year in-ground guarantee. EvaLam 20 have the addition of steel feet which allows us to offer a 20 year guarantee. Laminated timber glued according to EN 14080:2013 Standard. Produced from sustainably sourced timber.

Pressure treated using the latest generation wood preservative. The manufacturing process involved reduces the naturally occurring stress in the timber to give an increased resilience against cracking, even when exposed to longer periods of direct sunlight and consistent high temperatures. Suitable for most climates including hot or wet environments.

STEEL FEET

Galvanised steel feet offer an alternative to 'in-ground' timbers and can be used in both wet pour surfacing or extended to accommodate loose fill bark. The feet are securely fixed to the timbers prior to dispatch with all fixings concealed. Three different types of steel feet are available to suit all products and budgets.

INSERTED

A versatile cost effective steel foot which can be used on 125, 150 and 200mm diameter round timbers.

Best suited to low level trail items like the balance walk and stepping logs.

WRAP AROUND

A Premium wrap around steel foot option for 125 and 150mm diameter timbers.

Ideal for timbers carrying a greater structural load or if timbers are supporting moving components like swings.

SQUARE TIMBER

Ideally suited for use with our square timber tower posts and sleepers.

Can be used as a single foot on tower posts or doubled up for use on sleepers.

Bespoke Designs

A E Evans offers an extensive range of HDPE products from play panels to full sheets. HDPE is available in a range of colours. Due to its strength and weather resistant qualities it is ideal for use in playgrounds.

Looking after our environment is extremely important to A E Evans that is why we offer a range of recycled HDPE.

Weather Themed HDPE Panels

Ship Themed HDPE Panels

The two colour sheet with black core offers an eco-friendly alternative to the standard HDPE.

Simply get in touch with an idea and our in-house design team will help you develop your bespoke designs.

6-Axis CNC

The fully automated computer controlled **6-Axis CNC** machine works directly from a 3D CAD model. This allows **complex** details to be easily machined into both round and square timber with **precision accuracy**.

This **state of the art** machine enables A E Evans to push the boundaries in timber production.

SLEEPERS

EvaRound® 15

TOWER POSTS

EvaRound® 15

EvaRound® 15 high quality sustainable 195 x 95mm Sleepers. Ideal for; raised planters, soil ground retaining, steps, playground construction, terracing, benches and garden furniture. Available in any length up to 4.2m long with either a sanded smooth finish with rounded edges, or with square edges non sanded.

Also available 95 x 95mm EvaRound® 15 Tower Posts in lengths up to 4.2m long. These can be supplied with either sanded smooth finish with rounded edges, or square edge non sanded.

Both the Sleepers and Tower Posts can take advantage of the 6 Axis CNC machine to create complex Bespoke timbers. Once machined all timbers are pressure treated with a leading wood preservative.

"ready-made for the trade"

A E Evans are a manufacturer of high quality timber based products that have been established for over **50 years**. During this time we have become one of the **UK market leaders** in the design and supply of timber playground equipment to the following sectors,

- **Local Authorities**
- **Education**
- **House Builders**
- **Parish Councils**
- **Landscape Architects**
- **Leisure & Holiday Parks**

EvaPlay from A E Evans encompasses all of our individual play equipment ranges. A trusted brand with the expertise and ability to produce exciting and cost effective products.

- Playground equipment suitable for all ages, budgets and scheme sizes.
- Extensive range of leisure and amenity products.
- Friendly and professional customer support team.
- All play products designed and manufactured to BS EN1176.
- Extensive guarantees from 10 - 20 years available.
- EvaRound Playground timbers are sustainably sourced and can be FSC® certified on request.
- State of the art 6 axis CNC manufacturing capabilities.
- Each item comes complete and ready to install with clear installation instructions
- In house design team available to create bespoke products.
- All timbers pressure treated with the leading wood preservative.
- High quality EvaRound® 15 sleepers and tower posts.
- Landscape grade timbers ideal for fencing or retaining walls also available.
