

## BATTERSEA TENANT CYCLE STORE

Premium, Secure & Modular Bike Storage for Any Development

The Battersea Tenant Cycle Store is a bespoke cycle store that combines robust security with modern design. Initially developed for the iconic Battersea Power Station, this premium cycle store provides residents exclusive storage while helping developers meet sustainability and security standards. Each unit is constructed from high-security mesh panels with a galvanised or PPC finish, designed to deter theft while maintaining visibility for easy monitoring. With modular flexibility, these mesh security cages can be configured to fit almost any space, making them a practical option for residential developments, commercial projects and student accommodation. To provide enhanced protection, the cages include a secure ground anchor as standard, allowing residents to lock their bikes securely within the unit. Optional upgrades, such as mechanical code locks and access-controlled systems, make the Battersea Cycle Store a future-proof development choice.

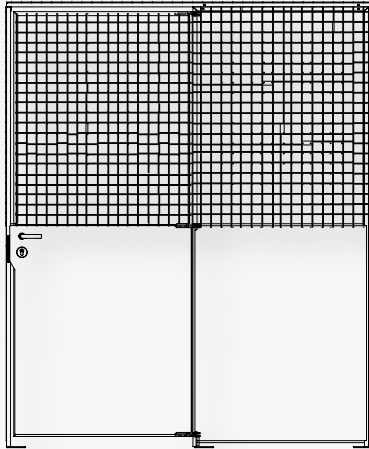

- › **High-Security Mesh Construction:** 50mm x 50mm mesh panels in galvanised or PPC finish
- › **Secure Ground Anchor:** Included as standard for enhanced bike protection
- › **Flexible Access Control:** Superlock latch deadlock, mechanical code locks, or access-control upgrades
- › **Modular Flexibility:** Extend, reconfigure, or customise cages to fit site requirements
- › **Mesh Top Roof:** Allows natural light in and reduces the need for additional lighting
- › **RAL Colour Options:** Match to any development's style, design and finishes
- › **Developed for Battersea Power Station:** Tried and tested at one of London's flagship projects
- › **Sustainable & Compliant:** Designed with BREEAM principles to support planning requirements
- › **Made in Britain:** Precision engineered with a 10-year manufacturer's warranty
