

CASE STUDY

WARBSTOW PRIMARY ACADEMY – PL15 8UP

SOVEREIGN
Bringing Imagination into Play

The headteacher of Warbstow Primary Academy reached out to Sovereign as an urgent matter after the school's trim trail was condemned and removed, leaving no outdoor play equipment for the children. The school had no available funds to support the project but had begun fundraising efforts. However, due to the school's size, this process was expected to take a considerable amount of time. As a result, they were seeking to secure additional support through funding bids and were enthusiastic about partnering with Sovereign. Their efforts were rewarded with a successful application to Funding 4 Education, enabling the school to move forward with acquiring new outdoor play equipment. As a result, they now boast a bespoke Flicky Trail for all the children to enjoy.

» FEEDBACK

What were the reasons for starting your project?

"We needed a trim trail!"

How did you discover Sovereign and why did you choose us?

"We found Sovereign on Google. They provided a sensible quote with finance option."

What was your experience of our design and installation process?

"Contractors were excellent. Design - this needed to be more thorough, and a pre-installation visit made as the surface issues then discovered could have been prevented. But Sovereign worked with us to find a solution which we were grateful for."

How has our equipment impacted or benefitted your school/organisation?

"Amazingly - children have somewhere to play, it supports children with SEND - offering them proprioception support. Site looks great too!"

What was your overall experience of having Sovereign fulfil your project?

"Great!"

» "Thank you, Sovereign, for all your hard work to ensure our playground looks great! The children love it, and it is already having a strong impact on play activities."
