

CASE STUDY

CALVERTON PRIMARY SCHOOL— E16 3ET

SOVEREIGN
Bringing Imagination into Play

» Before

» Before

» After

Facilities Manager Danny contacted us as they had secured funding for improvements to the KS1 and KS2 areas at Calverton Primary School and wanted to continue from the successful projects we'd previously delivered for Dersingham Primary School and Central Park Academy. Following redesigns of three outdoor areas to best utilise the available spaces, the school opted for a range of equipment which included a MUGA (multi-use games area), gazebo, multi-coloured polycarbonate-roofed pergolas, a bespoke trail, basket seat log swing, and more! The transformed spaces now offer a diverse mix of shade, outdoor learning, and adventurous play for all ages and abilities.

» FEEDBACK

Why did you choose Funding 4 Education?

We chose to use Funding 4 Education to accelerate our programme. Rather than put it over a course of 3-4 years of having the equipment installed, we wanted whatever we had installed to affect the children immediately. Funding 4 Education funded the whole project that we had planned for 3-4 years, in one term we got the work done, everyone now benefits from that.

How was the process of applying?

It was as simple as buying a car! Very simple, very easy, the people at Funding 4 Education were amazing and couldn't have made the process easier. Leigh from Sovereign was also brilliant, it was very easy.

What has it allowed your school to achieve?

The children have got a better playtime, a better and richer environment. I believe it is only for the benefit of the children. It's given us the achievement of these play spaces at not just one, two, but 3 sites (other schools) so it's been wonderful for us.

Would you recommend F4E to other schools?

I would recommend for any school to use Funding 4 Education. I would say to try and get the extra cost out of your mind and think about how you'll benefit immediately rather than doing a long term project. It works and if you need to change things, they change it for you easily. There is no drama involved; it is so easy to do.

"Funding 4 Education have been a brilliant company to work with, as have Sovereign. I wouldn't have changed anything I've done, it's easy to work with nice people and that's what we got."
