COMMONSWOOD PRIMARY & NURSERY SCHOOL— AL7 4RU

SOVEREIGN
Bringing Imagination into Play

The school had some old playground equipment in an area that was being used for wraparound care. The equipment was outdated and required updating or replacement. As the space was used daily by children of varying ages, new equipment was needed to create a safer, more engaging, and developmentally appropriate environment. The improvements supported children's physical activity, social interaction, and overall well-being during wraparound care sessions.

>> "The school chose to retain the existing trail but wanted to enhance the surrounding area. They decided on a custom adventure tower with rubber mulch safety surfacing, along with a basket seat swing installed on grass guard tiles, allowing multiple children to enjoy the equipment at the same time."
