LLANEDEYRN PRIMARY SCHOOL - CF23 9JN

SOVEREIGN
Bringing Imagination into Play

Sovereign had previously worked with Llanedeyrn Primary School on earlier playground installations, building a strong working relationship. Building on this, the school approached us again to explore the possibility of installing a Multi-Use Games Area (MUGA) in their underutilised outdoor tarmac space, aiming to maximise the area's potential and provide a versatile space for sport and play.

» "I had previously worked with the school to enhance their outdoor spaces by installing a variety of play and fitness equipment, including Children's Outdoor Equipment, Traversing Forest, Rock Climber, and a Triple-Bay Himalayas Climbing Wall—all designed to engage and challenge multiple children at once. Building on this active foundation, the school set their sights on a Multi-Use Games Area (MUGA) to further strengthen their provision of outdoor sport and physical activity."
