

Kanopé

(technical specification)

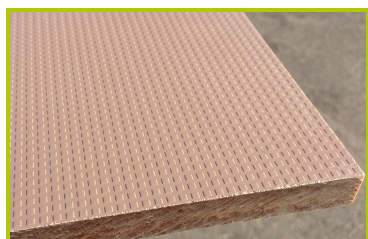

J56000

1- **The 95 x 95mm posts** are made of painted galvanised steel, ensuring robustness and durability.

2- **The 125mm diameter posts** are made of painted galvanised steel. The caps are made of injection moulded polyamide.

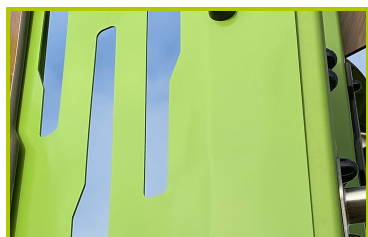

3- **The platform** is made from a 12.5mm thick textured and non-slip compact material (HPL).

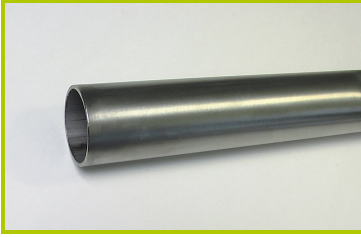

4- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

5- **The slatted fences** are produced using post-consumer waste, mainly recycled food and drinks containers (polyethylene, aluminium). This environmental impact reducing material is an inert and robust compound which is hard-wearing, resistant to UV light and fluctuations in temperature, and able to retain its shape over time. It is also rot-proof, making it a reliable option for outdoor applications.

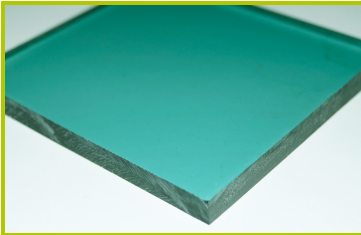

6- **The decorative fence panels** are made of 3mm thick painted aluminium sheets.

7- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

8- **The Kayak slide** is made of rotomoulded polyethylene.

9- **The portholes** are made from 8mm thick methacrylate (PMMA).

10-**The seats** are made with a non-slip rubber overmould.

11-**The 16mm diameter rope** is made of galvanized steel cable covered with polyester.

12-**Plastic parts** are made of injected polyamide.

13-**The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
