

Springers (technical specification)

J882

1- **The 120/140mm average diameter seat** is made from sap free robinia. The robinia is sanded and has had its bark removed. Robinia is naturally rot proof and does not require any additional chemical protection; it is equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.

2- **The handles and the footrests** are made of stainless steel, guaranteeing lasting durability and reliability of the equipment.

3- **The springs** are made from Grade 35SCD6 steel, shot blasted, stress relieved, zinc coated and finished with two coats of epoxy polyester powder. The polyamide attachment ensures longevity and an exceptional safety for the system.

4- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
