

Origin'

(technical specification)

J49306

1- **The different posts** are made from sap free robinia. The robinia is sanded and has had its bark removed. Robinia is naturally rot proof and does not require any additional chemical protection; it is equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.

2- **The board** is made from a 27mm thick sap free robinia. The robinia is sanded and has had its bark removed. Robinia is naturally rot proof and does not require any additional chemical protection; it is equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.

3- **The boards** are made from natural robinia wood or Douglas fir (plank sizes: 22, 27 and 45mm). Robinia wood and Douglas fir are naturally rot proof and do not require any additional chemical protection; they are equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment. The coloured panels are using a staining process.

4- **The slide** is made of stainless steel.

5- **The 16mm diameter rope** is made of galvanized steel cable covered with polyester.

6- **The cables** are linked together and held in place by injected polyamide spheres.

- 7- **The net fittings** are made of polyamide.
The fittings are composed of two distinct parts for ease of maintenance of individual strands.

- 8- **The abacus pieces** are made from natural Robinia wood or Douglas fir.
The rail is made from 10mm diameter stainless steel.

- 9- **The abacus spheres** are made of polycarbonate sheets.

- 10-**The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
