

Springers

(technical specification)

J49105

- 1- **The boards** are made from natural robinia wood or Douglas fir (plank sizes: 22, 27, and 45mm).

Robinia wood and Douglas fir are naturally rot proof and do not require any additional chemical protection; they are equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.

- 2- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

- 3- **The springs** are made from Grade 35SCD6 steel, shot blasted, stress relieved, zinc coated and finished with two coats of epoxy polyester powder. The polyamide attachment ensures longevity and an exceptional safety for the system.

- 4- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
