

# Trails

(technical specification)

J5906

1- **The 95 x 95mm posts** are made of painted galvanised steel, ensuring robustness and durability. The caps are made of injection moulded polyamide.

2- **The climbing wall** is made from a 12.5mm thick textured and non-slip compact material (brown HPL) and from a 13mm thick compact material (orange HPL). Robust in construction, HPL has excellent weather and vandal resistance properties.

3- **The 16mm diameter rope** is made of galvanised steel cable covered with polyester.

4- **The cables** are linked together and held in place by injected polyamide spheres.

5- **The net fittings** are made of polyamide. The fittings are composed of two distinct parts for ease of maintenance of individual strands.

6- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
