

Diabolo Baby

(technical specification)

J38705

1- **The 125mm diameter posts** are made of painted galvanised steel. The grained finish has a slightly undulating surface for increased scratch resistance.

2- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

3- **The platform and the steps** are made from a 12.5mm thick textured and non-slip compact material (HPL).

4- **The 60cm wide walkway** is made of a beveled aluminum treadplate.

5- **The baby-step Hill stairs** are machined in 20mm thick polyethelyne anti-slip panels which are fitted to a polyester ramp.

6- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

7- Injection moulded polyamide fixings connect the posts with the platforms and the various play features. They are non-toxic, flameproof and U.V. resistant. The thickness of the polyamide makes the equipment both strong and vandal resistant.

8- The sliding surface is made of 2mm thick stainless steel, which is shaped, bent and rolled from one piece.

9- The multi-texture play panel is made up of 3 types of material: synthetic grass, methacrylate diamond-shape motif and grained polyethylene.

10-The fixings are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
