

Origin' (technical specification)

J49107

1- The different posts are made from sap free robinia. The robinia is sanded and has had its bark removed. Robinia is naturally rot proof and does not require any additional chemical protection; it is equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.

2- The boards are made from natural robinia wood or Douglas fir (plank sizes: 22, 27 and 45mm). Robinia wood and Douglas fir are naturally rot proof and do not require any additional chemical protection; they are equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.
The coloured panels are using a staining process.

3- The 16mm diameter rope is made of galvanized steel cable covered with polyester.

4- The fixings for the nets and chains are made from aluminium.

5- The abacus spheres are made of polycarbonate sheets.

6- The abacus pieces are made from natural Robinia wood or Douglas fir. The rail is made from 10mm diameter stainless steel.

7- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
