

# Kanopé

(technical specification)

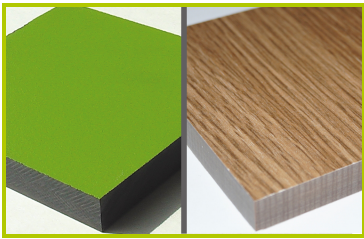

**J56008**

1- **The 125mm diameter posts** are made of painted galvanised steel. The caps are made of injection moulded polyamide.

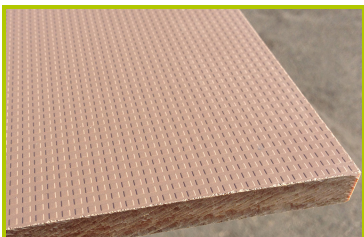

2- **The 95 x 95mm posts** are made of painted galvanised steel, ensuring robustness and durability.

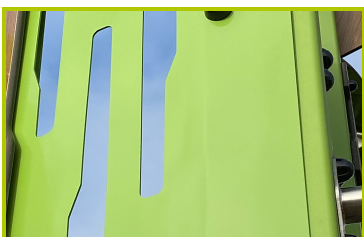

3- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

4- **The slatted fences** are produced using post-consumer waste, mainly recycled food and drinks containers (polyethylene, aluminium). This environmental impact reducing material is an inert and robust compound which is hard-wearing, resistant to UV light and fluctuations in temperature, and able to retain its shape over time. It is also rot-proof, making it a reliable option for outdoor applications.

5- **The platforms** are made from a 12.5mm thick textured and non-slip compact material (HPL).

6- **The decorative fence panels** are made of 3mm thick painted aluminium sheets.

7- **The soft ramp** is made of a woven strip with rubber surface.

8- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

9- **The panels** are made of stainless steel mesh netting, Ø 6mm.

10-**The slide** is made of rotomoulded polyethylene.

11-**The sliding surface** is made of 2mm thick stainless steel, which is shaped, bent and rolled from one piece.

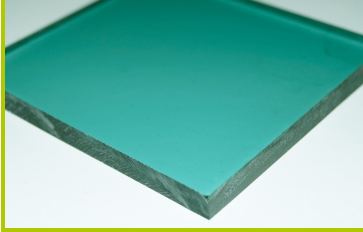

12-**The seats** are made with a non-slip rubber overmould.

13-**The chains** are made of stainless steel.

**14-The abacus spheres** are made of polycarbonate sheets.

**15-The portholes** are made from 8mm thick methacrylate (PMMA).

**16-The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
