

Bojon Lounger

The Bojon Lounger is a chaise longue crafted from hardwood or thermo-treated pine, featuring steel sheet sides and robust solid round steel supports. It is offered in single, double, or armchair versions.

To ensure durability and corrosion resistance, all metal components, including sides and supports, undergo galvanisation and are coated with thermosetting polyester powder. The fixings used are made of AISI304 stainless steel.

For secure installation, the lounger is designed with pre-drilled holes to facilitate ground fixing, although mechanical dowels for this purpose are not included and need to be obtained separately. This thoughtful design ensures stability and makes the Bojon Lounger suitable for a variety of settings, both indoors and outdoors.

L: 1635mm x W: 600mm x H: 780mm
