

BINFIELD CYCLE SHELTER

Customisable Protection for Every Project

The Binfield Cycle Shelter combines clean design, functionality, and flexibility, making it the ideal choice for any project seeking a premium bike storage solution. Designed and manufactured in Britain, this shelter is fully customisable to suit any project, with options for bespoke dimensions, material finishes, and integrated features. Its striking cantilevered canopy provides a modern, minimalist appearance, offering excellent weather protection and easy access. The Binfield ensures maximum cycle capacity without compromising design and is compatible with a wide range of storage configurations, including vertical, freestanding, Two Tier racks. Whether specified for schools, workplaces, residential projects, or large commercial developments, it delivers secure, sustainable, and future-proof bike storage backed by a 10-year warranty.

- › **Fully Customisable Design:** Adjust length, width, and height to suit any site or project requirement. Compatible with our Two Tier Racks for maximum storage efficiency
- › **Versatile Bike Storage Configurations:** Ideal for vertical, freestanding, or two-tier bike storage setups
- › **Cantilevered Canopy:** Modern design maximising covered space and ease of access
- › **Premium Material Options:** Choose from 16mm multiwall polycarbonate or glass panels, with optional integrated lighting
- › **BREEAM Compliant:** Supports sustainable building initiatives
- › **10-Year Manufacturer's Warranty:** Ensuring durability and peace of mind
- › **Proudly Made in Britain:** Expertly manufactured with attention to detail and quality

BINFIELD CYCLE SHELTER

The Binfield Cycle Shelter is a fully customisable, British-manufactured bike storage solution designed to suit a variety of environments. It features a modern cantilevered canopy and supports multiple rack configurations, including two tier, vertical and freestanding setups. With options for polycarbonate or glass roofing, integrated lighting, and bespoke RAL finishes, this shelter combines functionality and design.

Customisation that Works for You

Every site is different which is why this shelter is built to adapt:

- › Mild steel, hot dipped galvanised to BS EN ISO 1461:2022
- › Powder-coated in any RAL colour finish options
- › Heavy-duty 76.2mm CHS steel supports
- › Optional grated mesh partitions, electronic access control and locking systems
- › Modular, infinitely extendable, variable dimensions available
- › IP65-rated LED with PIR activation lighting (optional upgrade)
