

PREMIUM SECURITY CYCLE ENCLOSURE

High-Security, BREEAM Compliant, Premium Commercial Bike Storage

Our Premium Security Enclosure is the ultimate secure, compliant, and long-lasting cycle storage solution. Manufactured in Britain from hot-dipped galvanised mild steel to BS EN ISO 1461:2022 standards, it offers exceptional durability against heavy use, harsh weather, and security threats. Its robust 656 security mesh panels and precision-welded steel frame provide outstanding protection, while a variety of locking systems, from electronic access control to mechanical digital locks, allow you to tailor the enclosure to any security requirements. This shelter is fully customisable with options including RAL-powder coated finishes, sedum green roofing, IP65-rated PIR LED lighting, and mesh or panel types for visibility and security balance. Its modular, infinitely extendible design can be specified for anything from a small cycle hub to a large-scale development.

- › **High Security Design:** Built with 656 security mesh and a robust steel framework to deter theft and vandalism
- › **Multiple Locking Options:** Choose from electronic access control, mechanical digital locks, keyed systems, or padlock fittings
- › **Customisable Mesh Fencing:** Various mesh types available to match security and visibility preferences
- › **Weather-Resistant Lighting:** Optional IP65-rated LED lighting with PIR sensors for safe, well-lit access
- › **RAL Colour Finishes:** Wide choice of powder-coated colours for brand or site integration
- › **Infinitely Extendible:** Modular system allows for any capacity, from small installations to large public hubs
- › **Sustainability-Ready:** Fully BREEAM compliant

FINISHING OPTIONS

656 Security Twin Wire Mesh (supplied as standard) is a durable and secure option for bike storage shelters, featuring dual horizontal wires for enhanced strength and rigidity. This robust design prevents vandalism while maintaining clear visibility, making it ideal for public spaces, schools, and workplaces.

10 Gauge Mesh is a durable and secure option for bike storage shelters, offering robust protection against theft and vandalism. Its strong, welded steel construction provides excellent visibility while maintaining high security. This mesh is a cost-effective, long-lasting solution designed to withstand the elements and provide peace of mind for end users.

358 Mesh also known as anti-climb mesh, is a high-security option for bike storage shelters designed to prevent tampering and unauthorised access. Its narrow apertures and robust steel construction make it extremely difficult to cut or climb, providing superior protection against theft and vandalism.
