Two Tier Bike Rack Lift Assisted

** BULK BUY DISCOUNT*

PRODUCT DESCRIPTION

Our UK manufactured Two Tier Gas Assist Bike Rack is a pioneering and user friendly cycle parking system, with excellent space saving bike storage, superb usability and high value; allowing you to house twice as many bikes in the same area and space as any standard bike rack.

The unique aspect of the space efficient and cost effective "Two Tier Bike Rack" makes it exclusive which has resulted in a growing requirement for it; especially in areas of high population densities such as stations, shopping centers, schools, car parks and offices.

Cycle stands are compact with a center to center distance of 375mm

Minimum height required is 2400mm x minimum depth 1950mm (plus a recommended minimum entrance space of 1500mm)

Easy lift gas strut fitted so lifting the bike up on the rack requires minimal force from the user, as per health and safety standards

To be comfortable, we advise at least a 3500mm depth and a width of:

Price is based on per bike parking space.

- 4 bikes - 850mm length including feet - 1250 recommended room size to allow for handle bars
 - 6 bikes - 1225mm Length including feet 1625 recommended room size to allow for handle bars
 - 8 bikes - 1600mm length including feet 2000 recommended room size to allow for handle bars
 - 10 bikes - 1975mm length including feet 2375 recommended room size to allow for handle bars
 - 12 bikes - 2350mm length including feet 2750 recommended room size to allow for handle bars
 - 14 bikes - 2725mm length including feet 3125 recommended room size to allow for handle bars
 - 16 bikes - 3100mm length including feet 3500 recommended room size to allow for handle bars
 - 18 bikes - 3475mm length including feet 4875 recommended room size to allow for handle bars
 - 20 bikes - 3850 mm length including feet 4250 recommended room size to allow for handle bars
- Simply add 375mm for each extra 2 bikes.

Product Warranty: Two years

No Maintenance needed

Operational instructions: Easy lift gas strut fitted so lifting the bike up on the rack requires minimal force from the user, as per health and safety standards
