

(technical specification)

J49900

- 1- The boards XXXXX** are made from natural robinia wood or Douglas fir (plank sizes: 22, 27 and 45mm).

Robinia wood and Douglas fir are naturally rot proof and do not require any additional chemical protection; they are equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.

The coloured panels are using a staining process.

- 2- The different posts XXXXX** (average diameter: 60 to 80mm / 120 to 140mm / 140 to 160mm / 250 to 300mm) are made from sap free robinia. The robinia is sanded and has had its bark removed. Robinia is naturally rot proof and does not require any additional chemical protection; it is equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.

- 3- The 16mm diameter rope** is made of galvanised steel cable covered with polyester.

- 4- The net fittings** are made of polyamide.
The fittings are composed of two distinct parts for ease of maintenance of individual strands.

- 5- The cables** are linked together and held in place by injected polyamide spheres.

- 6- The ladder rungs** are made of acacia wood which is naturally rot-resistant and smooth to the touch.
They are mounted on a 16mm diameter polyester cable.

7- **The strap** is made of 3 ropes linked together with aluminium pliers. Each rope, of 16mm diameter, is made up of galvanized steel cables covered in polypropylene.

8- **The tubes** are made of 40mm diameter stainless steel, guaranteeing lasting durability and reliability of the equipment.

9- **The 133mm diameter supporting posts** are made of galvanized steel.

10-**The planter** is made of Douglas fir, a wood known for its strength and natural durability outdoors, and plexiglass. It is reinforced by a stainless steel frame, ensuring stability and longevity.

11-**The four seasons panel** is made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

12-**The spheres** are made of polycarbonate sheets.

13-**The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
