

# Traditional equipment

(technical specification)

J449

1- **The posts with average diameter 120 to 140mm** are made from sap free robinia. The robinia is sanded and has had its bark removed. Robinia is naturally rot proof and does not require any additional chemical protection; it is equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.

2- **The pod swing seat for early childhood** is made of polyurethane, which ensures a comfortable seating. The swing chains are made of stainless steel.

3- **The double jointed swing mechanism** is made of stainless steel. A safety chain provides additional support for the seat.

4- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
