

ACTI'Street

(technical specification)

J5236

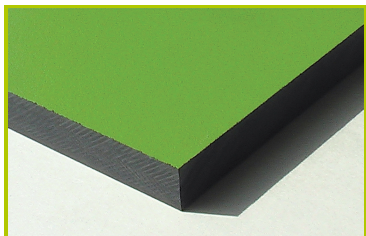

- 1- **The 102mm diameter posts** are made of painted galvanised steel. The grained finish has a slightly undulating surface for increased scratch resistance. The caps are made of painted aluminium.

- 2- **The fixing collars** are made of painted aluminium.

- 3- **The tubes** are made of electro-galvanized steel (diameter 34 mm) and stainless steel (diameter 40 mm), coated with epoxy paint. Electrogalvanization ensures corrosion resistance and gives a high quality finish. Stainless steel guarantees the longevity and robustness of the equipment over time. The epoxy paint provides better grip.

- 4- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

- 5- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
