

Traditional equipment

(technical specification)

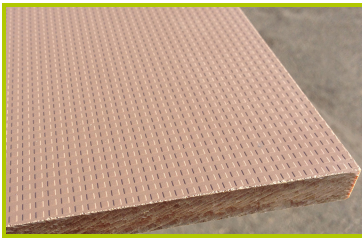

J49259

1- **The posts with average diameter 120 to 140mm** are made from sap free robinia. The robinia is sanded and has had its bark removed. Robinia is naturally rot proof and does not require any additional chemical protection; it is equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.

2- **The boards** are made from natural robinia wood or Douglas fir (plank sizes: 22, 27 and 45mm). Robinia wood and Douglas fir are naturally rot proof and do not require any additional chemical protection; they are equally extremely resistant to attacks from external sources (insects, fungi, climatic variations), guaranteeing the long term durability of the playground equipment.

3- **The platform** is made from a 12.5mm thick textured and non-slip compact material (HPL).

4- **The coloured panels** are made from a 13mm thick compact material (HPL). Robust in construction, it has excellent weather and vandal resistance properties.

5- **The abacus pieces** are made from natural Robinia wood or Douglas fir. The rail is made from 10mm diameter stainless steel.

6- **The fixings** are made of stainless or plated steel and protected by anti-vandalism polyamide caps.
