

Wooden Planters

Wooden planters add warmth to the built environment that few other materials can match. The build quality and construction means they are built to last, with robust 42mm and 20mm thick timber sections throughout.

Whenever you want to make an impression, choose our beautiful wooden planters. Their eye-catching design is the result of true craftsmanship and the wealth of experience we have gained during our 150 years of manufacturing history.

Our expert joinery team can make planters to any size, with your choice of finials, signage or engraving. Talk to us today to turn your ideas into reality.

We only use wood stocks from well-managed forests and all our wood waste is recycled.

NEW

Self-watering wooden planters

Our full range of hardwood planters are now available with self-watering systems, just like our plastic planters.

Now you don't have to decide between the beauty of natural timber or the practicality of plastic – you can have the best of both, to exactly match your project.

We are pleased to offer our wooden planters with self-watering reservoirs from industry leader Green-Tech. We will calculate the correct reservoir sizes to suit the planters you have ordered and supply all the parts you need to get started. It is the no-fuss way to healthier plants.

Our wooden planters are also available without a self-watering system.
