

PROJECTS

SLATED ROW SCHOOL (WOLVERTON) - MK12 5NJ

SOVEREIGN
Bringing Imagination into Play

Slated Row aimed to further develop its SEN provisions and create outdoor spaces that best support their students' needs. Having previously collaborated with the school and with additional funds available, Sovereign was the preferred choice to enhance the outdoor environment with engaging, inclusive features designed to promote activity, exploration, and sensory engagement.

» "Having worked closely with Slated Row on successful outdoor projects at Wolverton and Kents Hill Campus, the team at the former campus sought to further expand their outdoor SEN provisions. With additional funds available, they enhanced the outdoor environment with vibrant, sensory equipment, including a rainbow Daily Mile track, a custom lodge with a multicoloured pergola, and a sensory tunnel amongst other equipment installed."
