

CASE STUDY

SHERIDAN SCHOOL – IP26 5LQ

SOVEREIGN
Bringing Imagination into Play

"The new playground equipment at our school has been an absolute hit. From the moment it was installed, students of all ages have been drawn to it, and it's easy to see why. The design is bright, inviting, and thoughtfully planned to encourage both active play and imaginative exploration."

» "What stands out most is the quality. Everything feels sturdy, safe, and built to last, which gives staff and parents real peace of mind. The variety of equipment means every child finds something they love—whether it's climbing, sliding, balancing, or simply socialising in a fun, open space. We've already noticed how much more engaged and energetic the children are during break times. It's become a place where friendships grow, confidence builds, and kids can just be kids."

Overall, the new playground has been a wonderful addition to our school community, and we couldn't be happier with the positive impact it's had. The fitting team worked professionally and respected both the Area they were working in and the surrounding environment. I had used Sovereign on a Play Equipment project a few years ago and feel vindicated having picked their quote again this time around."
