

# BELTON SPECIFICATION SHEET

# The Belton

Horse Friendly Vehicle Barrier Gate

Designed to prevent unauthorised vehicle access on Public Rights of Way routes such as bridleways.

Heavy duty steel barrier gate with central step-over section, supplied complete with hanging and slamming post-slamming post incorporates a padlock secure box.

This gate is designed to enable interchangeable right or left hand hang - note only one-way opening is feasible.

Timber boards clad each side of the centre step-over bar to reduce the noise of contact with hooves.

**Stock Sizes:** 3.0m  
3.6m
